

Interpreting Services

RWS Moravia can support your global language needs by providing interpreting services for business meetings, conferences and events. Whether a business meeting, client visit, court proceeding, training, large event or conference, we are your partner when you need fast and reliable interpreters to help you communicate effectively anywhere in the world.

Our Services

Consecutive (liaison) interpreting

Ideal in one-to-one situations, small group discussions and court proceedings, this approach requires the speaker to pause after a few sentences to allow the interpreter to speak.

Simultaneous interpreting

Used at conferences or multilingual business meetings where speakers are interpreted simultaneously, participants speak at a natural pace with no forced breaks and interpreters work simultaneously.

Telephone interpreting

Our team of experienced interpreters are available to you in over 200 language

combinations 24 hours a day, 365 days a year. We charge no setup fees—you only pay for the time you are connected to the service.

Interpreting consulting

We can advise you on the most suitable interpreting arrangement for an upcoming event to help you with your planning.

Equipment rental and support

We provide specialist interpreting booths, conference microphones and headsets to ensure that your multilingual event is a success. Our experienced staff will provide advice on the best solution for your event, with an onsite engineer where necessary to ensure that everything runs smoothly.

Specialization

RWS Moravia's global network of interpreters is experienced in a range of interpreting styles and subject matter and we carefully select resources to match the specific requirements of each situation.

Our interpreters are professional linguists who all adhere to our code of ethics which includes a commitment to impartiality and confidentiality.

Quality

RWS Moravia has the experience and expertise to manage multilingual meetings and events of all sizes. Because we understand the effect that poor interpretation could have on your business, we place great emphasis on robust recruitment, training, monitoring and feedback procedures for all of our work. Our ISO 9001 systems are fully transparent and independently audited.
